JURY WILL CONSIDER

ANTHONY CASE TO DAY

Evidence All In and Arguments Made at Trial in United States Court.

CHARGE ILLICIT DISTILLING
Six Defendants Are Tried Together. Assistant District Attorney Hiram M. Smith Arrayed Against His Father, H. M. Smith, Jr.

The case of the government against Samuel Anthony and others, which has been on trial in the United States District court since Monday, was placed in the hands of the jury late yesterday afternoon. The jury, however, was not permitted to retire to deliberate, but was adjourned by Judge Edmund Waddill, Jr., until this morning, when it will consider its verdict.

Besides Samuel Anthony, the case is against Martha Anthony, Lena Anthony, Bernard Anthony, Henry Clay Foster and Henry Harris, all of Louisiana County. Each is accused of having engaged in the illegal manufacture of distilled spirits. The violation of the United States internal revenue regulations. It was elected to try them as a whole, instead of separately, so as to clear the docket of this term of court.

DRAW DISTINCTION BETWEEN BRANDIES AND LIQUORS
The government alleges that the accused engaged in the manufacture of brandy without giving a bond, as required by law. The defense held that the accused engaged in the manufacture of brandy from fruits, which, it contended, was exempt from the bond required in the manufacture of whiskey. For many years the Anthonys of Louisiana, and officers of the Internal Revenue Department have been at war. Various members of the family have been indicted for violations of the Federal court for alleged infractions of the regulations. Despite convictions and acquittals, the officers have continued their activities, seeking violators.

This case has been prosecuted by District Attorney Richard E. Mann and Assistant District Attorney Hiram M. Smith. The defense was represented by Attorney H. M. Smith, Jr., father of the assistant district attorney, and Attorney L. O. Wendenburg. The sight of father arrayed against son in the legal battle was the subject of much comment.

It is expected that Judge Waddill will summon another jury as soon as that which heard the Anthony case retires this morning, and will proceed at once with the next case on the calendar.

PLAINTIFFS CHARGE

ILLEGAL ATTACHMENT

Trail Begins of Suit of Richmond Engineering and Manufacturing Co. Against I. Bluford & Co.

The suit of the Richmond Engineering and Manufacturing Company against I. Bluford & Co. for \$10,000 damages alleged to have been caused by an illegal attachment, began yesterday in the Law and Equity Court.

The plaintiffs allege that the defendant company went to W. E. DuVal, clerk of Hustings Court, Part II, on December 13, 1913, and charged that the plaintiff owed the defendants \$2,000, and that the latter were preparing to have taken of their property, and caused Clerk DuVal to issue an attachment on the property. It is alleged that the attachment was held for a month, and that in the following January Hustings Court, Part II, adjudged that the attachment had been made on false suggestion, and ordered it to be discontinued. Since then, the plaintiffs state, the attachment has not been further prosecuted.

LITTLE ROCK WANTS MEET

Arkansas Delegation Invites Southern Medical Association.

The Arkansas delegation attending the convention here of the American Medical Association has inaugurated a movement to capture the 1915 meeting of the Southern Medical Association for Little Rock. The physicians will gather in Richmond next month for their annual convention.

With this end in view members of the delegation, including President George W. Rogers, Secretary R. G. Wait and Thomas C. McLean, yesterday called upon Dr. Stuart McGuire and asked his support in helping them land next year's meeting of the doctors. Dr. McGuire assured them that he would use his efforts in their behalf, and would present the Arkansas invitation to the executive committee when it considers the matter of selecting the next place of meeting.

WILL EXTEND LIGHTING

SYSTEM INTO SUBURBS

Administrative Board Facing Problem of Care for Annexed Territory.

WANT ESTIMATE ON SURVEY
Complete Maps and Plans of New Area Necessary Before Money Can Be Wisely Expended on Its Improvement.

On motion of Commissioner Beck, the Administrative Board yesterday instructed Superintendent Trafford, of the City Electric Plant, to prepare plans for and make an estimate of the cost of installing a proper lighting system in Oak Grove, Swansboro, Woodland Heights, Forest Hill and Forest Hill Annex. Some of these suburbs to be annexed are not lighted at all, while others are lighted under private contract, payment for which is privately subscribed. Mr. Beck thinks these suburbs deserve to have city facilities like those in the city.

The board also is preparing to lay a water main at an early date from the Woodland Heights terminals to Forest Hill Annex as part of an extended re-arrangement for that territory. **WANT BETTER LIGHTS**

ON OAKWOOD AVENUE
The board received a communication from the East End Progressive Association requesting that more adequate lighting be given to Oakwood Avenue, from P Street to Oakwood Cemetery.

On motion of Commissioner Beck the communication was referred to Superintendent Trafford, of the City Electric Plant, for examination of the need and report.

The board received from the Finance Committee a request that the committee be furnished with an approximate estimate of the cost of making a survey of the territory to be annexed in time for its next meeting, which is to be held on October 20. In order that an appropriation might promptly be made with which to begin the survey. The request was referred to the City Engineer, with instructions to report on or before October 20.

A petition from property owners requesting that the Virginia Railway and Power Company be required to discontinue operating Westhollow cars on Floyd Avenue and on Robinson Street, and instead run the cars out West Street and thence down Broad Street, was on motion of Mr. Hirschberg, referred to the president of the railway company, with the request that he advise the board as to what will be the company's attitude in reference to this line in the revision of its franchise.

MAY RECLAIM SWAMPS OF CHICKAHOMINY RIVER

Viewers Report That Drainage Is Practicable and Conducive to General Welfare.

SUBMIT FINDINGS TO COURT

Expected That Judge Scott Will Enter Order Approving Plan to Establish Such District in Henrico and Hanover Counties.

Viewers appointed by Judge R. Carter Scott, of the Henrico County Circuit Court, to pass on the advisability of establishing a drainage district in Henrico and Hanover Counties, submitted a preliminary report yesterday. They find that the proposed drainage is practicable, will be beneficial to the public health, conducive to the general welfare of the community, and will also benefit the lands sought to be drained.

The case comes up in the court on petition of D. W. Starbuck and others, and was brought under a special statute authorizing the establishment of drainage districts under certain conditions. The petitioners are found to be favorable to the viewers and it is expected that Judge Scott will enter an order approving their findings.

Mr. Starbuck is president of the Chickahominy Drainage Association, and it is this organization which brought the matter into court. It has been pending for more than a year, and the backers believe that the big work will soon be inaugurated. **PROPOSE TO DRAIN**

MUCH SWAMP LAND
It is proposed to drain thousands of acres of swamp land through which the Chickahominy River passes. The strip of ground to be reclaimed is several hundred feet at some points, while at others it extends back for nearly a mile.

When this ground is drained off, it will add thousands of acres of valuable farm land to Henrico and Hanover Counties. The ground is now partly tilled, but is subject to overflows, and planting is a big risk to the owners. The drainage will be undertaken by the association. It will cost thousands of dollars, but the money expended, which will be repaid by the returned four-fold in the increased values.

Those taking the matter to court government surveyors went over the proposed district and passed on the feasibility of these engineers, together with the maps and profiles secured by the viewers, were submitted in court. They are represented by Colonel W. W. Starbuck, counsel for the association.

Mr. Starbuck has lived in the West, and has a better knowledge of the drainage system than is here, and is highly pleased with the work of the association, which will be highly successful, and that the property owners along the Chickahominy will be benefited all over the State in a few years.

CLASSES AT Y. W. C. A.

Two Educational Features Will Start at Central Building To-Night.

The Young Woman's Christian Association has arranged for a series of educational classes to be held at the central building, 6 North Fifth Street. Two of these classes will start to-night, and will be inaugurated as soon as possible. The first to open will be those in modern European history, conducted by Miss Baker, dean of the Woman's College, and in practical English, conducted by Miss Anderson, also of the Woman's College staff.

The association has also announced that on each Thursday night there will be a free gymnasium class open to members and nonmembers.

Disorderly in Street.
Levi Rose, colored, was yesterday fined \$10 and costs in the Police Court on a charge of being disorderly in the street. An attachment was issued for Albert Jackson, charged with a similar offense, but who failed to appear in court.

Burglary Charge Continued.
The case against Howard Frazier, colored, arrested by Detectives Kellam and Bertucci, charged with breaking into Cornell & Miller's place, 215 North Third Street, and stealing to-bacco valued at \$15, was yesterday continued until October 21 by Justice Crutchfield.

The Dairying Industry of Virginia

is one that has a large scope for development. As seen from the official report, three cities imported \$1,000,000 worth of cheese and the State 10,000,000 pounds of creamery butter in the last year. Virginia, with her ideal pastures for the raising of herds of cattle, is losing large sums of money each year in not pursuing this industry to its fullest extent. At the State Fair during the past week the Virginia exhibits in dairy products compared most favorably with those of other States who have made this their chief source of revenue for years.

MONTICELLO ASSESSED FOR TAXES AT \$25,403

Home of Thomas Jefferson Offered to Federal Government for \$500,000 by J. M. Levy.

The tax returns in the office of State Auditor C. Lee Moore, according to a statement given out yesterday, show that "Monticello," the former home of Thomas Jefferson, is assessed at \$25,403. The present owner, Mr. Levy, pays taxes on that value.

The property embraces 603 1-4 acres of land near Charlottesville. The land is assessed at \$12,403; the building at \$12,000. Mr. Levy offered to transfer the property to the United States government originally at \$500,000, but later modified his valuation so that it may be acquired at \$250,000, if the Federal government desires to take the property.

One of the leaders of the movement to persuade the government to acquire Monticello was Mrs. Martin W. Littleton of New York, who delivered an address on the subject before the last General Assembly, and who, with her husband, is a guest of the bankers' convention.

APPEAL AWARDED

Supreme Court Will Review Duncan Case, From Culpeper County.

On petition of Annie D. Duncan and others, an appeal and supersedeas were granted by the Supreme Court of Appeals yesterday in the case of R. R. Duncan's administratrix vs. Duncan and others, which came from the Circuit Court of Culpeper County, where decrees were entered against the petitioners July 22, 1913.

The suit grew over a contest involving the estate of R. R. Duncan, of Culpeper, who died in September, 1912, leaving a widow and seven children. The action was brought by the widow, who was also the administratrix of the estate. She alleged that fifteen years ago she sold a tract of land, her separate estate, the proceeds of which amounted to \$2,000, and loaned the husband the money, with the understanding that the relation of debtor and creditor should exist and the money be paid back to her. She claimed that this debt, with many years interest, was due her when the husband died. In his will Duncan left all of his real estate and furniture to the widow and his personal property to his children. The widow renounced the provisions of the will and claimed her dower and a share of the personal estate. She then filed the suit, setting up the alleged indebtedness of \$1,800, with interest.

Limitations might wipe out the debt. The defendants filed their bill, denying the existence of the debt, and pleaded the statute of limitations. The Circuit Court decided against the petitioners, thus permitting the personal estate to be absorbed by the widow. The court decreed the payment of \$1,725.50, the amount of the purchase price of the land, with interest. Duncan for the land, with interest.

BOYS ARRESTED

Hunter and Huston Charged With Cutting Two Men With Razor.

After three weeks' search, Henrico police have made two arrests in connection with an assault on two young men of Highland Park, who were badly slashed with a razor late on the night of September 23. Deputy Sheriff W. W. Hunter and Elmer Huston, young white boys, who are charged with the offense, were arrested yesterday.

The injured youths were Alvin Neisz and Henry August. They had been having a quarrel with two young men, and were near the end of the bridge when they were accosted by two men. After a struggle, both were cut with a sharp instrument, believed to be a knife or razor.

Hunter and Huston were admitted to bail in the sum of \$500 each, and will be arraigned for a hearing on Monday morning before Magistrate T. J. Puryear.

Held for Alexandria Police.
Joseph Meekins, the negro arrested early yesterday morning by Detectives Kellam and Bertucci, charged with being a fugitive from justice in Alexandria, where he is alleged to have murdered a woman, was yesterday ordered held until October 24 by Police Justice Crutchfield. Meekins, who is charged with assaulting and beating Lizette Brown, of this city, was fined \$10 and costs on this charge.

The Alexandria authorities have been notified of his arrest, and are expected to appear here and claim the man before the case is again called in Police Court.

VIRGINIA PEANUTS TO BE SHOWN AT SAN FRANCISCO

Pick of Exhibits at Petersburg Fair Secured by Captain Baker, of Virginia.

Captain W. W. Baker, the Chesterfield member of the Virginia Commission to the Panama-Pacific Exposition, visited the Petersburg Fair yesterday in the interest of the Virginia exhibit to be installed at San Francisco. Captain Baker made arrangements during the day to secure for the State's exhibit the pick of the exhibits of peanuts and cotton made at the Coliseum City show. He secured photographs and other interesting items of a desirable character, which will be forwarded to the Pacific Coast at the close of the fair in Petersburg.

Mr. Lewis will leave for San Francisco Saturday, October 24. He has been delegated by the commission to receive the Virginia building, Mount Vernon, from the contractors. Mr. Lewis will also look after the decorations for the Virginia section of the Palace of Agriculture at the big show. Other matters of business entrusted to him include placing the Virginia exhibit in the building, its improvements to be made to the lot on which Mount Vernon stands.

LABOR LAW VIOLATIONS

Several Convictions Secured by State Bureau in Danville.

Agents of the State Department of Labor have renewed their activities in Danville, where a large number of violations were secured last week in cases involving violations of the State labor law. Two more convictions were obtained in the Mayor's court yesterday morning according to a report received from Deputy Police Inspector J. E. Clinchman by Labor Commissioner Donerty.

Baroddy and the firm of Sarris & Co. were each fined \$10 and costs by Mayor Harry Wooding for violating the law prohibiting the employing of labor more than ten hours a day. Deputy Clinchman also reports twenty-three alleged violations of the law requiring the protection of employees from the effects of fire. Two cases against John E. Humes & Co. in which the child labor law is the charges; two cases against the Penn Stores, failure to provide for the child labor law; and one case against the violation of the ten-hour law the other. All of these cases have been set for trial on Monday, October 19.

TOLSON IS HELD FOR WASHINGTON POLICE

Says He Promised Dying Friend to "Look Out for His Wife."

The case against Joseph M. Tolson, arrested by Detectives Kellam and Bertucci in a house on West Cary Street as a fugitive from justice from Washington, was yesterday continued until October 21 by Justice Crutchfield. According to the story Tolson related to the police, a very close friend of his died some months ago and on his death bed asked him to "look out for his wife." It is alleged that Tolson's efforts toward this end caused him to desert his own wife and to come here with the family of his friend. Wife of Tolson, who is a widow, is a felony, and Tolson will be returned to that city to stand trial.

Waives Preliminary Examination.

Joseph Strong, colored, who is alleged to have shot and killed his wife in their home on Thirty-first Street some days ago, yesterday waived examination in the Police Court, and was sent on to the Hustings Court for trial at the November term.

BUTTON DAY NETS \$1,600

FOR CONFEDERATE HOME

With Several Stations to Be Heard From, Workers Are Pleased With Results.

ELEMENTS HANDICAP SALES

Despite inclement weather, Boxes Are Opened for Contributions at Early Hour—Banker's Daughter Sells Tiny Emblems at Jefferson.

Collections amounting to \$1,600 were reported last night by the workers who braved the inclement weather yesterday to sell tiny buttons for the benefit of the Home for Needy Confederate Women. Several stations are yet to be heard from.

Mrs. Andrew Jackson Montague, president of the board, stated that she and her associates were more than pleased with the results, especially in view of the rainy weather.

"Please thank the workers for me," she said. "They did nobly, and deserve all credit for their work under such a handicap. And add the thanks of the society to the people of Richmond who responded so liberally to our appeal for funds."

The workers were at their stations shortly before 7 o'clock yesterday morning, and all day long they offered the buttons for sale, and dependants of the Home for Needy Confederate Women. It was an unusual sight to see a man or woman without one of the emblems, while many a coat lapel bore two and three. Women and children, as well as the men, dropped their mites into the contribution boxes.

WOMEN OF CONFEDERACY

The fund raised will go toward the support of the Home for Needy Confederate Women. Many of these women for years did their share to keep green the memory of the Confederacy, and now, at this late date, are forced to seek the shelter provided by their more fortunate comrades at home.

The fund raised will go toward the support of the Home for Needy Confederate Women. Many of these women for years did their share to keep green the memory of the Confederacy, and now, at this late date, are forced to seek the shelter provided by their more fortunate comrades at home.

While the larger part of the money came from local people, the visiting delegates to the American Bankers Association convention entered into the spirit of the day and wore a button, emblazoned with the battle flag of the Confederacy.

One of the interesting features at the Jefferson was the activity of Miss George Rogers, daughter of President George W. Rogers, of the Arkansas Bankers' Association, in selling the Confederate buttons. She was a volunteer in the service, and before noon had turned over to the local committee the sum of \$25 as the result of her labors in disposing of the popular souvenir.

In the afternoon the committee called in a body and gave the little Arkansas miss an auto ride over the city.

RECITAL TO-NIGHT

Will Be for Benefit of St. Paul's Parish

An organ recital for the benefit of the parish house will be given to-night by Mr. Flaxington Harker, assisted by Mrs. Harker, at St. Paul's Episcopal Church at 8:15 o'clock. While no tickets will be sold, a collection will be taken. Though Mr. Harker has only recently come to St. Paul's he has already won many friends, and is looked upon as a decided addition to the musical talent of Richmond. He has arranged an appropriate program for to-night's recital.

Pharmacy Examinations.

The State Board of Pharmacy has been called to meet next Tuesday at the Medical College of Virginia, this being the quarterly meeting for the purpose of examining applicants for registration as licensed pharmacists and assistant pharmacists. There are thirty-one candidates for the pharmacist's certificate and seventeen asking for license as assistants. The examinations will extend through two days.

RAILROADS TO RESTORE

FORMER FREIGHT RATES

Lines Leading From Virginia Into South Acquiesce at Instance of Business Bodies.

AFFECTS GREEN VEGETABLES

Chambers of Commerce of Richmond, Norfolk and Petersburg Act in Behalf of Producers and Commission Merchants Who Complain.

At the combined request of the Chambers of Commerce of Richmond, Norfolk and Petersburg, the three railroads leading into the South from Virginia, the Southern, the Atlantic Coast Line and the Seaboard Air Line, have agreed to return to their former rates for the shipment into the Carolinas of specific green vegetables.

Two months ago the railroad companies increased the rate by nearly 50 per cent. Producers and commission merchants immediately began to complain, and, through the three business organizations mentioned, introduced movements to persuade the railway companies to return to their former rates.

The three chambers communicated with the railway officials in regard to the general plea for a reduction of the rate, and yesterday Traffic Manager E. S. Goodman, of the Richmond Chamber of Commerce, received information from authoritative sources that the present rate would be reduced to the former figures.

The green vegetables particularly included are cabbage, potatoes, onions and turnips. The former rate from Richmond to Raleigh was 21 cents 100 pounds, and this was increased to 32 cents. The rate to other cities was correspondingly increased.

When the new rates would go into effect, but he thought they would become operative as soon as the railroads could so through the detail of changing the schedule.

ARMY AND NAVY UNION

FORMS LOCAL GARRISON

Organization Meeting to Be Held at Richmond Grays' Armory To-Night.

Final steps toward the organization of a local garrison of the Army and Navy Union will be taken to-night at a meeting to be held in the Richmond Grays' Armory. All eligibles in the city are invited to be present, and it is expected that the organization will start out with a record-breaking charter membership.

At a preliminary meeting held two weeks ago, Chief Yeoman Knowlton, was made secretary, and he reports that the movement has been enthusiastic. Those eligible for membership are honorably discharged or retired officers and enlisted men of the army, navy or marine corps, or volunteers who have been in service. This includes men who were honorably discharged by reason of physical disability.

Federal Prisoners on Trial.

Three Federal prisoners were taken out of the Henrico County Jail yesterday for trial elsewhere. The men were Robert L. Carpenter, John McBride and John Gale.

Carpenter was taken to Kentucky by Deputy United States Marshal J. E. McBride, and McBride and Gale were taken by Deputy United States Marshal Carter H. Harrison to Roanoke to stand trial on a charge of breaking into the post-office building at Buchanan.
